I'm writing this letter to you to express my displeasure with the proposed LNG barge in the Long Island Sound. I believe Broadwater will be very costly, risky and not needed in the sound. The need of a constant armed private security will be disruptive to the peaceful tranquil waters of the sound. Please respond to this letter in writing informing me of your position. In addition this facility will limit access and sets a dangerous precedent of industrializing the Sound.

Sincerely,

Sandra Freund
